**NEUROIMMUNOMODULATION:  
INTERVENTIONS IN AGING AND CANCER  
FIRST STROMBOLI CONFERENCE ON AGING  
AND CANCER<sup>a</sup>**

*Editors*

WALTER PIERPAOLI AND NOVERA HERBERT SPECTOR

*Conference Coordinator*

IONE AUSTON

---

CONTENTS

---

Welcoming Remarks. *By* WALTER PIERPAOLI ..... ix

**Part I. The Psychosocial Elements  
in Aging and Cancer: A NIM Approach**

Psychosocial Stress, Aging and Cancer. *By* HANS-JOACHIM F.  
BALTRUSCH, JOCHEN SEIDEL, WALTER STANGEL, AND  
MILLARD E. WALTZ ..... 1

Epidemiologic Aspects of Stress, Aging, Cancer and the Immune  
System. *By* BERNARD H. FOX ..... 16

Augmentation of Natural Immunity and Regulation of Tumor  
Growth by Conditioning. *By* VITHAL K. GHANTA, TAKAJI  
MIURA, NANCY S. HIRAMOTO, AND RAYMOND N. HIRAMOTO ..... 29

Psychoimmunologic and Endorphin Function in the Aged. *By*  
GEORGE F. SOLOMON, MARIA A. FIATARONE, DONNA  
BENTON, JOHN E. MORLEY, EDA BLOOM, AND TAKASHI  
MAKINODAN ..... 43

<sup>a</sup>The papers in this volume were presented at the NATO Advanced Research Workshop (NATO-ARW 397/86) entitled Neuroimmunomodulation: Interventions in Aging and Cancer, First Stromboli Conference on Aging and Cancer, held by the Institute for Integrative Biomedical Research, the International Working Group on Neuroimmunomodulation, and the Italian National Research Centers on Aging (INRCA) in Stromboli, Sicily, June 7-11, 1987.

## Part II. Association of Neuroendocrinologic, Thymic and Immune Functions in Aging and Cancer

The Effects of Cortisone on Acetylcholinesterase (AChE) in the Neonatal and Aged Thymus. <i>By</i> KAREN BULLOCH AND ROBERT LUCITO .....	59
Neuroendocrine-Thymus Interactions: Perspectives for Intervention in Aging. <i>By</i> N. FABRIS, E. MOCHEGANI, M. MUZZIOLI, AND M. PROVINCIALI.....	72
A Pituitary-Thymus Connection during Aging. <i>By</i> KEITH W. KELLEY, DONNA R. DAVILA, SUSAN BRIEF, JOSEPH SIMON, AND SEAN ARKINS.....	88
Cancer and Aging: From the Kinetics of Biological Parameters to the Kinetics of Cancer Incidence and Mortality. <i>By</i> LUCIO PIANTANELLI.....	99

## Part III. Central Nervous System Role in the Expression of "Physiological" Senescence

Altered Striatal Dopaminergic and Cholinergic Reciprocal Inhibitory Control and Motor Behavioral Decrements in Senescence. <i>By</i> J. A. JOSEPH AND G. S. ROTH .....	110
Can Opioids Regulate Hemopoietic Differentiation? <i>By</i> EDWARD S. GOLUB, TERESITA DIAZ DE' PAGAN, IRIS SUN, ALISON K. HALL, FRED L. CRANE, AND GARY ISOM.....	123
Tetrahydrobiopterin and Biogenic Amine Metabolism in Neuropsychiatry, Immunology, and Aging. <i>By</i> ROBERT A. LEVINE .....	129
Pineal Melatonin, Its Fundamental Immunoregulatory Role in Aging and Cancer. <i>By</i> GEORGES J. M. MAESTRONI, ARIO CONTI, AND WALTER PIERPAOLI .....	140

## Part IV. Neuroendocrine and Immunological Aspects of Senescence

Modulation of Glucocorticoid Receptor from Development to Aging. <i>By</i> MOHAMMED KALIMI, JOHN HUBBARD, AND SUBHENDU GUPTA....	149
Life and Death of Neurons: The Role of Senescent Cell Antigen. <i>By</i> MARGUERITE M. B. KAY, GEILJAN BOSMAN, MARY NOTTER, AND PAUL COLEMAN.....	155
Mechanisms of Altered Hormone and Neurotransmitter Action during Aging: The Role of Impaired Calcium Mobilization. <i>By</i> GEORGE S. ROTH.....	170
Immune Senescence Contributes to the Slow Growth of Tumors in Elderly Subjects. <i>By</i> MARC E. WEKSLER, TADAAKI TSUDA, WILLIAM ERSHLER, YOUNG T. KIM, GREGORY W. SISKIND, DIANE ESPOSITO, GIANFRANCO FASSINA, AND MARCELLO SINISCALCO.....	177

Immunoregulation in Aging. <i>By</i> GINO DORIA, LUCIANO ADORINI, EDRIS SABBADINI, CAMILLO MANCINI, AND DANIELA FRASCA.....	182
---	-----

#### **Part V. Neuroimmunomodulatory Control of Oncogenesis and Tumor Growth**

The Neuropeptide Network. <i>By</i> CANDACE PERT WITH HARRIS DIENSTFREY.....	189
Neurohumoral Mechanisms of the Formation of Antitumoral Activity. <i>By</i> V. B. VINNITSKY .....	195

#### **Part VI. Prospects for Intervention in Aging**

Dysdifferentiation Hypothesis of Aging and Cancer: A Comparison with the Membrane Hypothesis of Aging. <i>By</i> IMRE ZS.-NAGY, RICHARD G. CUTLER, AND IMRE SEMSEI .....	215
Four Models of Medicine: Mechanisms of Aging and Conditions Promoting Cancer Development. <i>By</i> V. M. DILMAN .....	226
Restoration of <i>in Vivo</i> Humoral and Cell-mediated Immune Responses in Neonatally Thymectomized and Aged Rats by Means of Lipid and Protein Fractions from the Calf Thymus. <i>By</i> BRANISLAV D. JANKOVIĆ AND DRAGAN MARIĆ .....	228
Immunorestorative Effects in Elderly Humans of Lipid and Protein Fractions from the Calf Thymus: A Double-Blind Study. <i>By</i> B. D. JANKOVIĆ, P. KOROLJA, K. ISAKOVIĆ, LJ. POPESKOVIĆ, M. Č. PEŠIĆ, J. HORVAT, D. JEREMIĆ, AND V. VAJS .....	247
Hormonal Intervention: "Buffer Hormones" or "State Dependency." The Role of Dehydroepiandrosterone (DHEA), Thyroid Hormone, Estrogen and Hypophysectomy in Aging. <i>By</i> WILLIAM REGELSON, ROGER LORIA, AND MOHAMMED KALIMI .....	260
The Therapeutic Potential of Lymphokines in Neoplastic Disease. <i>By</i> MELANIE S. PULLEY AND D. C. DUMONDE.....	274
Relation between Lymphocyte Subpopulations and Pineal Function in Patients with Early or Metastatic Cancer. <i>By</i> P. LISSONI, S. BARNI, G. TANCINI, S. CRISPINO, F. PAOLOROSSO, G. CATTANEO, V. LUCINI, M. MARIANI, D. ESPOSTI, G. ESPOSTI, AND F. FRASCHINI.....	290
Bone Marrow: A "Morphostatic Brain" for Control of Normal and Neoplastic Growth. Experimental Evidence. <i>By</i> WALTER PIERPAOLI, JAYA BALAKRISHNAN, GEORGES J. M. MAESTRONI, EDGAR SACHE, AND JEAN CHOAY .....	300
Opoids: Immunomodulators. A Proposed Role in Cancer and Aging. <i>By</i> NICHOLAS P. PLOTNIKOFF .....	312

### Concluding Remarks

Rambunctious Remarks and a Look to the Future. <i>By</i> NOVERA HERBERT SPECTOR.....	323
Index of Contributors.....	337
Subject Index.....	339

### Financial assistance was received from:

- FIDIA, ABANO TERME, ITALY
- ITALIAN NATIONAL RESEARCH CENTERS ON AGING
- NEW YORK ACADEMY OF SCIENCES
- NORTH ATLANTIC TREATY ORGANIZATION
- SIGMA-TAU, ROME, ITALY
- SWISS CANCER LEAGUE, BERN, SWITZERLAND

The New York Academy of Sciences believes it has a responsibility to provide an open forum for discussion of scientific questions. The positions taken by the participants in the reported conferences are their own and not necessarily those of the Academy. The Academy has no intent to influence legislation by providing such forums.
